Objective

Prospective nurse practitioner seeking employment in primary care. As a nurse practitioner candidate graduating in May with 4 years of nursing experience, I have a steadfast commitment to seek employment as a dedicated team member with the appropriate skills and knowledge.

Professional Experience

Lurleen B. Wallace Community College – Opp, AL
ADN Clinical Instructor | January 2022- May 2022

- Direct supervision of associated level nursing students, while the student gained appropriate skills and attitudes required of professional nurses. Identified each student's potential and areas of improvement and adjusted teaching approach and instruction as needed. Served as a mentor and resource to practice skills and patient interaction in the hospital setting. Gave feedback on assignments including patient care plans, medication profiles, and research papers.

Andalusia Health – Andalusia, AL
Registered Nurse | Intensive Care Unit | November 2020 – January 2022

- Supervised staff of 4 nurses in an 8-bed unit, while providing quality and compassionate care. Main responsibilities included intravenous drug therapy, colostomy care, telemetry monitoring, wound care, ventilation management, post-operative care, and hemodynamic monitoring. Other duties included infection control, lab and diagnostic interpretation, and interdisciplinary team communication.
- Responded to medical emergencies within the facility by serving on the Rapid and Code response team.

Charge/Staff Nurse | Birthing Center | May 2019- November 2020

- Trained in labor and delivery, nursery, and postpartum care. Responsibilities included fetal strip monitoring, pain management, emotional support, labor coaching, lactation support, newborn

Education
